The 14-story, 120-unit luxury condo development at 50 Liberty Drive on the Boston waterfront's Fan Pier **officially broke ground in October 2015**. Last week, it officially topped off.

The complex is going up next to Twenty-Two Liberty, another Fallon Company project and one where choicer units **have gone for well northward of \$5,000,000**. Fifty Liberty will include 30,000 square feet of civic, cultural, and retail space.
